**Request For Proposal From Individuals And/Or Firms
Interested In Providing Planning Services
For The Preparation Of A Master Plan Re-Examination And A New Master Plan
For The Borough Of Highlands**

The Borough of Highlands is seeking proposals from individuals and/or firms interested in providing planning services for the preparation of a master plan re-examination and a new master plan for the Borough. The Mayor and Council of the Borough of Highlands will select one or more individuals and/or firms to provide said services for the Borough. The selected individuals and/or firms shall be based upon a fair and open process, pursuant to N.J.S.A. 19:44A-20.4, et. seq. and in accordance with the Resolution previously adopted by the Mayor and Council to secure such services through a fair and open process. In order to have a proposal considered by the Mayor and Council an interested individual/firm must provide evidence that they satisfy the minimum requirements for this position, as set forth in Section 3 of this document and that they otherwise comply with the proposal requirements set forth in the Borough of Highlands's NOTICE AND SOLICITATION OF PROPOSALS section of the Borough's web site (www.highlandsnj.com).

1.0 BACKGROUND INFORMATION

Highlands, NJ, located in eastern Monmouth County, had a 2012 estimated population of 5,050. Overlooking the Shrewsbury River and Sandy Hook Bay, Highlands sits just above sea level. Bisected by Shore Drive into lower Highlands and upper Highlands, the Borough contains 0.64 square miles. The borough was significantly impacted by Superstorm Sandy, with over 1,200 buildings experiencing damage, numerous commercial district structures rendered uninhabitable, severe damage to infrastructure, and its impacts are still being felt.

Since the storm, the Borough has had a Strategic Recovery Planning Report (SRPR) developed and adopted, which recommended that the Master Plan be reviewed and updated as necessary. This SRPR also contained a risk assessment and a Getting to Resilience Report that reviewed the Borough's planning documents for resiliency and made specific recommendations for them.

The Borough Planning Board is seeking the assistance of an individual or firm **licensed by the State of New Jersey as Professional Planners and AICP certified** to provide professional planning services for the preparation of a new master plan and master plan re-examination. The Borough's current plan had a re-examination done in 2008.

The Borough of Highlands anticipates receiving a grant through the New Jersey Department of Community Affairs for the development of such a plan.

1.1 PURPOSE AND INTENT OF REQUEST FOR PROPOSAL

The purpose of the project is to prepare for the Borough of Highlands a master plan re-examination and update, as per the Municipal Land Use Law. The Borough Planning Board intends to hire a professional planner or planning firm who will provide the technical assistance to complete this plan and present it for action to the Planning Board.

The Master Plan Re-examination will ensure that:

- The future land-use map clearly identifies natural-hazard areas;
- Land-use policies discourage development and redevelopment within the natural-hazard areas;
- Environmental systems that protect development from hazards are identified and mapped;
- Transportation systems are designed to function under disaster conditions; and
- Sustainable development and redevelopment is actively encouraged.

1.2 CONTENTS OF THE PROPOSAL

The Master Plan Re-examination and new Master Plan will serve as the guiding document for actions by the Planning Board as to planning and development within the borough. The successful bidder will provide a proposal that will allow the Borough to expeditiously determine its course of action. Previous relevant experience with municipal master planning and sustainable development should be highlighted.

The proposal to assist the Borough Planning Board to prepare a Master Plan Re-examination and new Master Plan shall incorporate the tasks and deliverables listed in Section 2.0 Scope of Work and Components of Investigation.

The Preliminary Investigation and all contract deliverables must be completed within a six (6) month contract term.

Any awards made through the Post Sandy Planning Assistance Grant program will be subject to the Community Development Block Grant Disaster Recovery (CDBG-DR) regulations and the New Jersey DCA CDBG-DR Action Plan, as approved by the United States Department of Housing and Urban Development (HUD).

1.3 PROPOSAL SUBMISSION AND DEADLINE

An original, five (5) "hard" copies and one digital copy of the proposal shall be submitted no later than December 1, 2014 by 4:00 p.m. EST. All proposal submittals should be delivered by hand, first class mail or via email by the referenced due date to the contact person specified below.

Please note that any State or Federal suspension, debarment, or disqualification action against a consultant or any member of the consultant's team will render them ineligible to participate in this project.

Proposals are considered public information, except as may be exempted from public disclosure by the Open Public Records Act, N.J.S.A. 47:1A-1 et seq., and the common law.

1.4 COLLABORATIONS AND SUBCONTRACTS

Any proposal that relies on collaboration between consultants, who are not formally affiliated, must include a signed copy of the agreement between the authorized signatories of the parties to the proposal. Any subcontractors to be engaged by the entity preparing the proposal must be identified in the proposal.

2.0 SCOPE OF WORK AND COMPONENTS OF THE PLAN

The proposal to prepare a master plan re-examination and update shall incorporate the tasks listed below and the deliverables listed below. The Plan and all contract deliverables must be completed within a six (6) month time frame.

The effort shall produce a master plan re-examination report for the planning board's adoption in accordance with the applicable statute, namely Article 11 of the Municipal Land Use Law (N.J.S.A. 40:55D-89) (MLUL), which requires the Re-Examination Report to state:

- a. Describe the major problems and objectives relating to land development in the municipality at the time of the adoption of the last reexamination report.
- b. Describe the extent to which such problems and objectives have been reduced or have increased subsequent to such date.

- c. Describe the extent to which there have been significant changes in the assumptions, policies, and objectives forming the basis for the master plan or development regulations as last revised, with particular regard to the density and distribution of population and land uses, housing conditions, circulation, collection, disposition, and recycling of designated recyclable materials, and changes in State, county and municipal policies and objectives.
- d. Recommend specific changes for the master plan or development regulations, if any, including underlying objectives, policies and standards, or whether a new plan or regulations should be prepared.
- e. Recommend specific changes to the land use plan element of the master plan and/or to the local development regulations concerning the incorporation of redevelopment plans adopted pursuant to the Local Redevelopment and Housing Law, into the land use plan element of the municipal master plan, and recommended changes, if any, in the local development regulations necessary to effectuate the redevelopment plan of the municipality.

In addition to the general requirements of these five objectives, emphasis shall be given to the following topics, within the context of items (c) and (d), above:

- Vulnerability of the borough to ongoing sea level rise and increased extreme storm events, and subsequent coastal flooding;
- Proposed strategies to increase the borough's resiliency to sea level rise, increased extreme storms events and coastal flooding; and
- Sustainable development strategies.

Task A. Project Coordination

The selected consultant will undertake initial project organization, including a kick-off meeting with Borough representatives. The consultant will be expected to provide a timetable with tasks, key dates and deliverables at this meeting.

Task B. Existing Conditions Analysis

Provide updated land-use, economic, demographic, environmental, housing and other needed data for use in preparing a Master Plan. The selected consultant will be expected to use already collected data from recent studies and reports as much as possible, including the SRPR, recent Rutgers University studio projects, etc.

Task C. Plan Preparation

This task will entail a significant public-involvement process to develop, articulate and visualize future scenarios for the downtown and waterfront, and to develop a consensus around priorities and objectives. Information and analysis collected under Task B will be used to inform participants about needs, limitations and opportunities to be considered in order to ground the planning process in a real-world, present-day context.)

Task D. Implementation Plan

Building upon each of the previous tasks, specific actions and recommendations will be developed regarding how to best achieve the vision and plan articulated in Task C. Examples will include: mechanisms for funding new development, redevelopment and supporting infrastructure; regulatory mechanisms non-regulatory tools such as

capital-improvement planning, Borough operations and maintenance, development assistance/support, special events and marketing; and a monitoring process and performances measures to allow the Borough to closely evaluate the progress and impacts of the Master Plan. The Planner shall be required to put their report into the suitable format, to be chosen by the Planning Board, as part of its Basic scope of services

Task E: Monthly Reporting to NJ Department of Community Affairs.

The consultant will submit monthly reports to the NJ Department of Community Affairs pursuant to the requirements of the Post-Sandy Planning Assistance Grant Program and provide the appropriate documentation to comply with the state regulations for the grant award.

The Planner's effort is to be consistent with the ordinary and customary practices and the applicable standard of care in performing a re-examination report pursuant to the MLUL, both in terms of quality of services / work product and level of effort, notwithstanding that same may not be expressly stated within the Basic scope of services set forth in this RFP.

The Board will create a small subcommittee to work closely with the Planner in stewarding and developing the Re-Examination report and new plan. This subcommittee will be comprised of not more than four (4) members of the Board and not more than two (2) other individuals, as designated by the Board.

The Planner shall assume a minimum of five (5) formal meetings as part of this engagement, as follows:

- Kickoff meeting with the Board's Subcommittee to confirm objectives, establish a detailed schedule, and identify essential resource documents and Borough personnel. The Board's Subcommittee will offer their preliminary thoughts, recommendations, issues, concerns as related to the Borough's Master Plan and / or future Borough wide planning. The Planner will take notes and take into consideration the Subcommittee's comments within the context of the Planner's professional opinion.
- Discussion of preliminary findings with the Subcommittee and follow-up investigation, review, assessment as may be required, based on the Subcommittee's input.
- Initial presentation to the Board of preliminary findings and open issues requiring consideration and decisions by the Board. This session will likely involve input from the public.
- Follow-up session with the Board or its subcommittee presenting an outline of the proposed draft report, including key findings. The Subcommittee will be given an opportunity to review the draft Report and provide mark-ups / comments for consideration by the Planner and incorporation of same into the said Report.
- Close-out presentation to the Board of the final draft of the reexamination and update report.

In planning and conducting the engagement, the Planner shall seek to find those tasks that can readily be done by the Borough staff and/or members of the Board and/or the Board's professionals. The contractor and the _____ of _____, (hereafter "owner") do hereby agree that the provisions of Title 11 of the Americans With Disabilities Act of 1990 (the "Act") (42 U.S.C. 5121 01 et seq.), which prohibits discrimination on the basis of disability by public entities in all services, programs, and activities provided or made available by public entities, and the rules and regulations promulgated pursuant there unto, are made a part of this contract. The owner shall, as soon as practicable after a claim has been made against it, give written notice thereof to the contractor along with full and complete particulars of the claim, If any action or administrative proceeding is brought against the owner or any of its agents, servants, and employees, the *owner shall* expeditiously forward or have forwarded to the contractor every demand, complaint, notice, summons, pleading, or other process received by the owner or its representatives.
